Admissions arranges authorized invitations

Required Academic Participation

At Rocky Hills Leadership Institute, education extends beyond the Digital Classroom.

Every admitted student is required to belong to the official WhatsApp learning group associated with their enrolled academic department.

The Admissions Office shall use each student's verified WhatsApp contact information to arrange membership in the appropriate departmental group as part of the enrollment process.

WhatsApp is an official extension of the RHLI classroom and an essential component of the Institute's educational curriculum.

Academic Activities on WhatsApp

1. Friday Seminars: Scheduled weekly presentations, public speaking, academic discussions, instructor guidance, and student participation take place on the departmental WhatsApp platform.
2. Continuous Education: Instructors may share supplementary educational videos, reading materials, instructional recordings, and learning resources throughout the week.
3. Academic Discussions: Students participate in questions, answers, intellectual exchanges, and discussions that strengthen their understanding of course materials.
4. Departmental Communication: Instructors communicate important notices, educational expectations, meeting information, and academic guidance.
5. Learning Community: Students develop professional relationships, collaborative learning habits, and a sense of belonging within RHLI's international virtual academic community.

Student Responsibilities

Every enrolled student is expected to:

- Maintain membership in their official departmental WhatsApp classroom.
- Check the platform regularly.
- Participate in Friday seminars according to the published departmental schedule.
- Review supplementary instructional materials.
- Respond appropriately to instructor-directed academic activities.
- Maintain professional communication and respect fellow students and instructors.

RHLI will consider international time zones and reasonable participation arrangements as its academic systems continue to develop.

Follow the reasonable participation deadlines stated by your instructor. If WhatsApp access is unavailable, contact Admissions or your instructor to arrange an approved alternative.

Relationship to the Digital Classroom

The Digital Classroom remains the official location for weekly course materials, formal assignments, submissions, grading, and permanent academic records.

The departmental WhatsApp classroom provides live seminars, educational discussions, supplementary instruction, and continuous academic engagement.

Both platforms are essential components of the RHLI learning experience.

Admissions verifies your WhatsApp number and arranges an authorized invitation. Completing this guide does not join a group or confirm enrollment. Keep official assignment submissions, grades and submission receipts in the designated Digital Classroom systems.

CONGRATULATIONS ON COMPLETING YOUR ORIENTATION!

If you have further questions or would like additional information, please contact RHLI Administration or Admissions.
